I am with Utility Warehouse. Suddenly, early in the morning around 4 am, my internet just stopped. The phone line is ok so I don't think that there was a line issue. Restarted the router 3 times. Problem still there. Either the network, or the router are my guess. Using the phone, I googled but found nothing. That's the problem when a company is using other company's tech. My area is 01322
