md - Convert - MultiMarkdown to RTF throws an error Automator encountered an error running this workflow: "Couldn't communicate with helper application." everything is installed correctly, running 10.13.6 Rebuilt it from scratch still the same error... Thanks

mkmWTRia — Aug 28, 2020 04:47 pm

I'm having the exact same error as the user above. Running MacOS 10.14.6. Would love, love, love to figure this out so I could write markdown in Mail.app.

Thanks!
