Hi Brett,

Thanks for releasing this!

I'm not getting anything from my Twitter feed when I test-run slogger from the command line.

This is the line in the config file. Is it correct?:

```
twitter_users: [ timwindsor ]
```

This is what is returned by the script in Terminal:

```
I, [2012-08-06T11:47:48.844851 #19972] INFO -- : Loading Twitter logger for user(s) timwindsor
```

Nothing is inserted into the Day One file. Is there something else I should be doing?

Thanks.

Do you have tweets in the previous 24 hours that aren't replies?

Tim Windsor — Aug 06, 2012 11:20 pm

I just re-ran the script and nothing showed up. Then I relaunched Day One and the tweets showed up. I thought I'd tried that debugging step yesterday as well, but now I'm beginning to question whether I did that after all.

Meanwhile, it looks as if a re-launch of Day One on Mac may be necessary to display tweets.

Thanks!
