Hi Brett ,

It would be interesting to hear how and why you use Curio vs Mindmeister vs Tree. What kind of data do you put into Curio ?

## **ttscoff — Jun 25, 2014 10:05 pm**

MindMeister and Tree's functionality is included in Curio, but you can also add dozens of other types of data, as well as local files, emails and more. Full spotlight indexing, too. Basically everything in a project or brainstorm can go into Curio, including Tree files, OPML data and mind maps.
