There's this stuff I use for both the sticky quality and vibration dampening. It's a big stretchy balloon/ball (I think this is it - <https://www.amazon.com/Inflatable-Bubble-Bumper-Outdoor-Childrens/dp/B09929JMXJ>) that is easily cut to size. Get the biggest one to minimize the curvature. Does not collect hair/dust like the super sticky stuff does.

Ooh, I never would have thought to try that!
